Miracle Recreation Equipment

Designed for kids

Miracle was established in 1974 and is one of Australia's first playground manufacturers. We are experts in creating fun, exciting and challenging children's play equipment that is safe, dependable and long lasting.

At Miracle we understand the importance of play as an integral part of children's development of social and physical skills. We work both nationally and internationally in this field with Local Government, Schools, Landscape Architects and Builders. Together we work with you as a team to make your vision a reality.

Imagine... Create... Play...

The Process

- Step 1: One of our experienced sales consultants will come out to meet with you on-site. They will discuss your target demographic, suitable items, proposed outcomes, themes, ideas and budget. They will also take photographs and measure the proposed area.
- Step 2: Customised designs will be tailor made to meet your requirements, area & budget. You will receive a design that has been created by our team of designers.
- Step 3: Production will take place in our factory, at which point a suitable time for installation will be arranged.
- Step 4: Site preparation begins, followed by the installation and then the soft fall once everything else is completed.
- Step 5: A handover will be done with your sales consultant once the job is completed.

Playgrounds

Playgrounds are integral to children in their formative years by assisting in developing their social and physical skills. They are a place where imagination runs wild, kids can have fun playing in different environments that challenge and excite them.

Miracle Recreation Equipment assists in the creation of these environments through our extensive range of playgrounds that can be custom made to suit your individual needs. Our experienced team will work in partnership with you to provide the perfect platform for play where children feel inspired and interact in safe places.

Panels

Our selection of panels are both fun and functional.

Whether they are being used as a barrier or as a standalone item, you can choose from practical, educational, themed or game based panels.

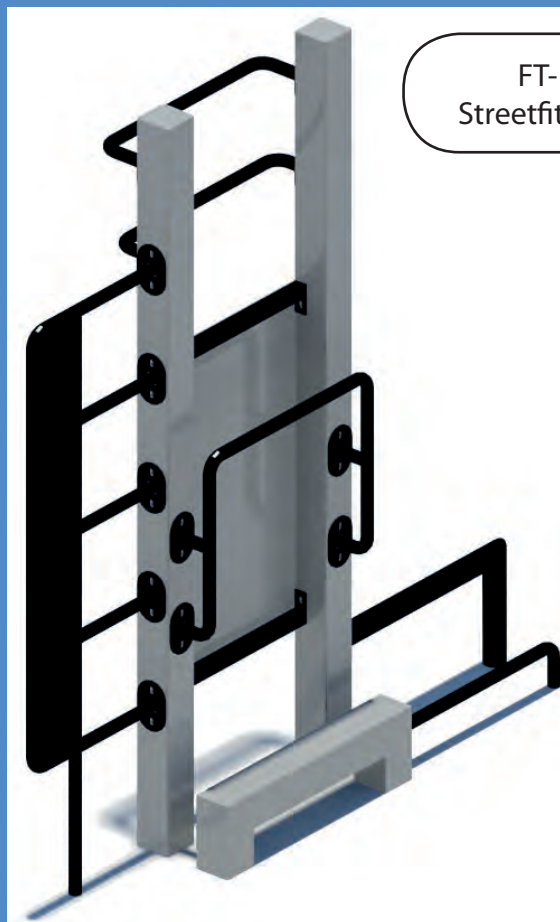

Fitness

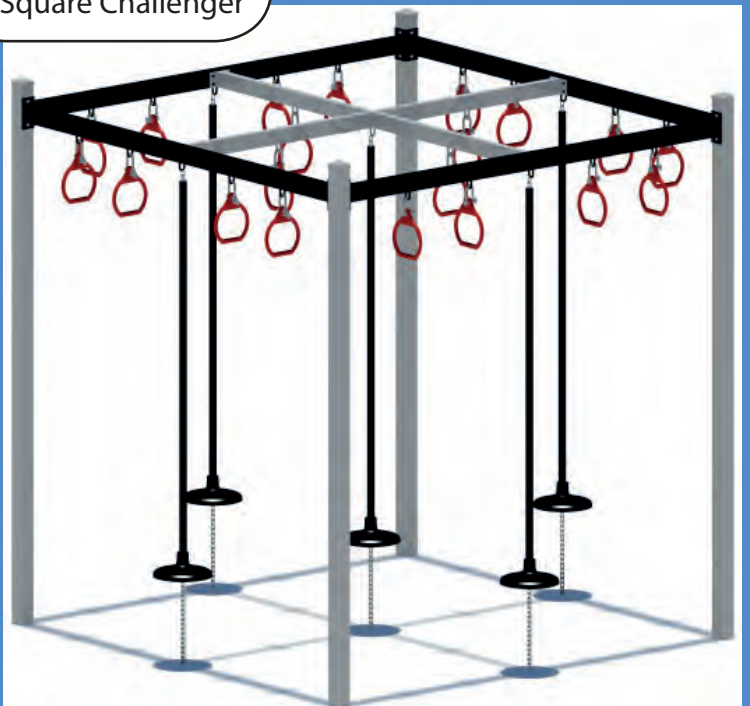

Physical development is just as important as mental development. We can offer a range of individual items as well as combined mini gyms.

- Chin up bars
- Sit up benches
- Leg lifts
- Climbing frames
- Monkey bars
- Parallel bars
- Rock walls

Furniture & Shelters

From a simple seat to a full gazebo, whatever your requirements we can help.

Miracle has an extensive range of park furniture that would sit comfortably in any environment. Catering to the needs of your project you can choose from our existing product range or modify & custom make your own.

We can use pine, jarrah, recycled plastic, aluminium or steel to suit the application and the style you are looking for.

- Benches
- Seats
- Bins
- Bollards
- Anti Skate rails
- Drink fountains
- Bag racks
- Tree guards
- Stadium Seating
- Fences, Balustrades
- Basket Ball / Netball
- Shelters
- Gazebo's

Beelair Shelter PKF-032

A simple yet versatile shelter. The picnic setting can be made from timber, aluminium or recycled plastic.

If you don't need the setting, it can be replaced with a lockable information board or just leave it out completely.

Mason Gazebo PKF-039

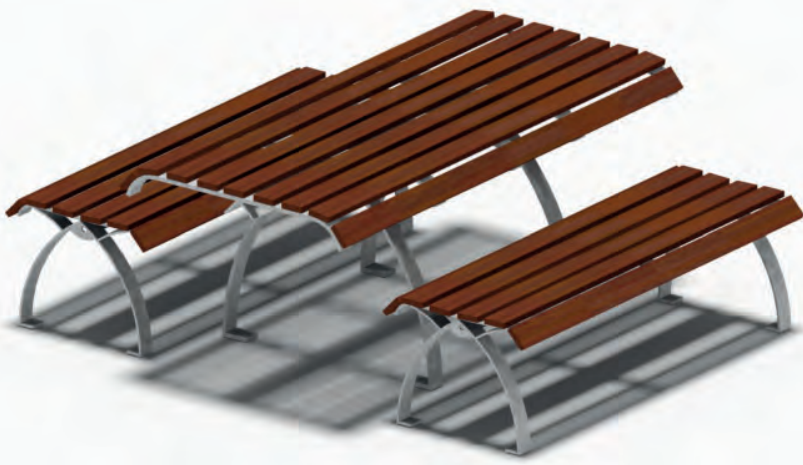

Available in 4.5m and 7m diameter, this gazebo is perfect for outdoor events.

You can add seating, a picnic setting or just leave it open to accommodate a multitude of uses.

The steel posts, timber rafters and colorbond roofing make a durable gazebo that will last a lifetime.

Brook Range PKF-003

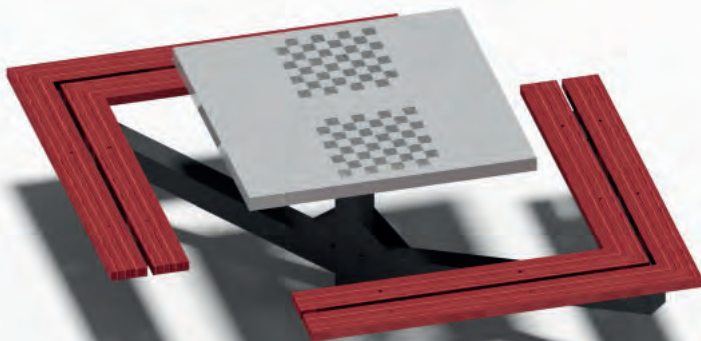

Available as a complete setting, bench or a seat, the battens can be made from timber, aluminium or recycled plastic.

Chess Picnic Setting PKF-020

Available with either an aluminium or stainless steel top with the board lasercut into the design.

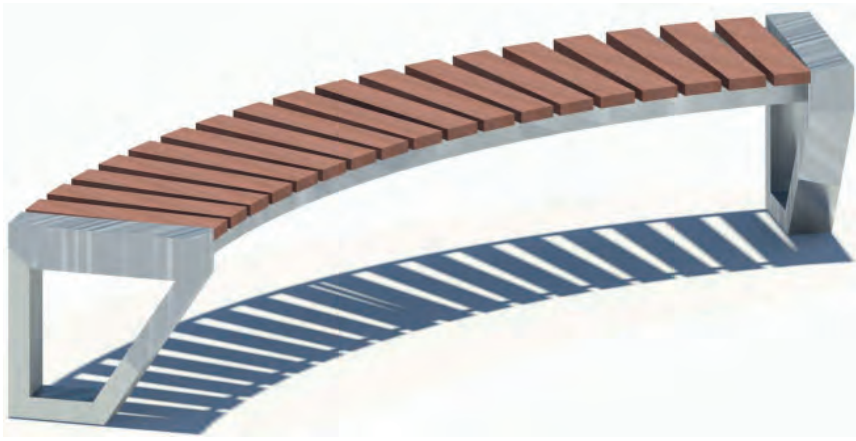

The seating is available in timber, aluminium or recycled plastic.

Ashburton Drinks Fountain PKF-002

A simple, accessible drinks fountain available in bolt down and in ground options. An additional tap can be added to the base for filling a dog bowl.

Curved Bench PK-211

The radius of the curve can be customised to suit your application. Whether you want to follow the curve of a wall or surrounding a tree to use its natural shade, this bench can accommodate.

The seating is available in timber, aluminium or recycled plastic.

Wilson Bench PKF-009

The simplest seating option. The Wilson bench is available in bolt down and in ground options. The aluminium construction allows for use right on the coast without worrying about corrosion.

The bench is available in any length up to 6m and can be powder-coated to suit its location.

Wanneroo Seat PKF-030

If you need a little extra support then the Wanneroo seat is for you.

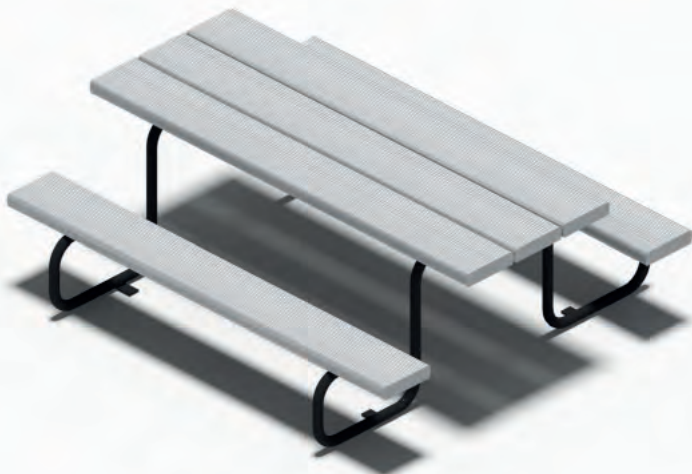

With all the versatility of the Wilson bench, just with an added backrest for increased comfort.

Aluminium Picnic Setting PK-41

Back to basics.

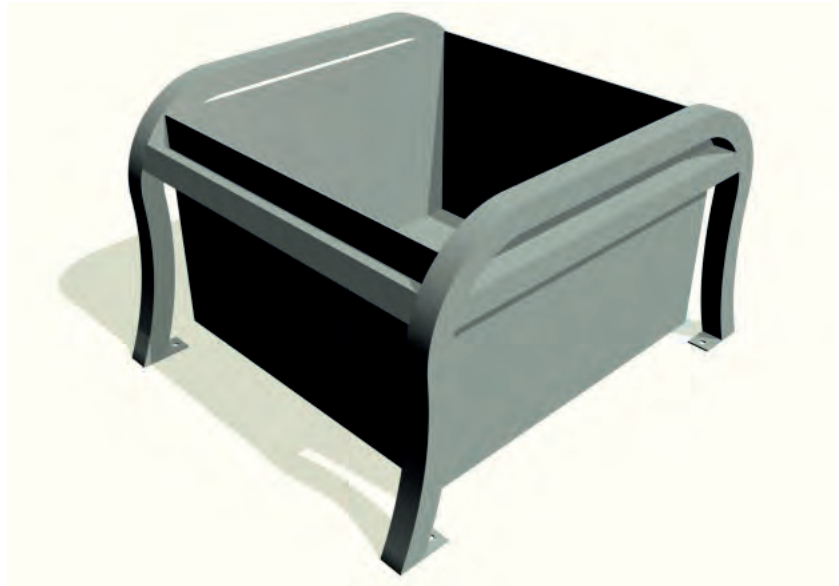

A simple design yet versatile. Can be made in up to 6m lengths allowing for everything from a couple of friends having lunch to a whole family picnic.

Shannon Planter Box PKF-006D

A simple way to bring nature a little closer.

The Shannon planter box allows for small tree or shrubs to be planted on paved or concreted areas without the need to dig.

Bins

What better way of keeping our parks and street clean than providing enough bins.

You can choose either a 55 ltr bin or a surround to cover a 120 ltr or 240 ltr trundle bin.

There are too many design options available and any design can be customized to suit your needs.

**Argyle Bin
PKF-012A**

**Ashburton Surround
PKF-012A**

Bag Racks PK-178

A Customizable storage solution.

Bag racks can be made in any length up to 6m and can have up to 4 shelves. They can be bolted to a wall or the floor and can be powder coated to the colour of your choice.

Peak Drinks Fountains PK-123

A simple yet elegant design.

Made from stainless steel and can be left polished or powder coated to suit your design.

The drainage base can be laser-cut with any design to match either a logo or any aesthetic you desire.

Boom Gate PK-103

A simple lockable gate that can be made in a variety of lengths to help secure any roadway / access point.

Available with lock open and closed posts and can be either powder coated or hot dip galvanised as required.

Shade Sails

Our range of shade sails provides the ultimate UV-R and UPF protection for all areas.

Take comfort in its tested durability and let Miracle Recreation Equipment help you create the perfect sun safe environments.

Available as a hipped structure or as posts and sails, we can cover any area.

GSWeb

The world's leading name for net-based play equipment. GSWeb net-play products use incredibly tough long-lasting nylon coated wire ropes. With strength, elasticity and vivid colour built into every fibre, you won't find a better way to build brilliant net play products.
